Farmers are ahead of their spring work this year. Oats about all sown—promise of a big fruit crop. With our soil well drained and a stone road leading to a market like Toledo affords, farmers are progressive and prosperous. A man from Toledo, passing through this place 25 years ago, when the roads were bad and the land wet, declared he would not live here if someone gave him a farm. Farm land is worth more here than any part of Wood county at the present time. The man that had the courage to endure the hardships of pioneer days is well rewarded. The time is not far distant when the man who owns a farm in Wood county can ride around in his automobile, while someone else works the farm.

FULLER'S.

—A good authority on horses says that the gray will live the longest, and that the roans come next in order. Blacks seldom live to be over 20, and creams rarely live to be more than 10 or 15 years.

We Invite Your Attention

To some of the new Spring Goods that have recently been added to our stock. Make it a point to come in and spend a little time looking. Don't feel that you are obliged to make a purchase just because you have asked to be shown. The fact is that I am pleased to have you come in and feel perfectly at home to ask all the questions you want to, look over our new spring lines, and see if we have what you want. This is the only way you CAN know. Anyone who ever traded at this store knows that the "people behind the counter" are painstaking and courteous salespeople, and they like to be given an opportunity to demonstrate their stock. We all do our best to select such goods as our trade demands and as we have been at it for several years it stands to reason that we can do you some good at least along some lines when you get ready to buy goods in our line.
